EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Safran on March 7, 2007.

Claim 10 has been rewritten as follows:

-- 10. The device of claim 13, wherein said circulation pump is arranged for pumping said heat transfer medium through said heating/cooling surface. --

Claim 12 has been rewritten as follows:

-- 12. The device of claim 13, further including a second evaporator integrated into said coolant circuit which exchanges heat with an air flow. --

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: While the examiner agrees that claims 10, 12 (as amended above) and 13 are allowable over the prior art, the examiner disagrees with counsel's remarks in the paragraph spanning pages 4-5 of the 01 February 2007 amendment to the following extent: In claim 13, the first recited "means for fluidly conductively" corresponds to the combined action of valves 72 and 90 acting in concert. The second recited "means for fluidly conductively" corresponds to valve 72. The third recited "means for fluidly conductively" corresponds to the combined action of valves 54 and 72 acting in concert. Finally, the fourth recited "means for fluidly conductively" corresponds to valve 54.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
